

## Senior UX/UI Designer

### About Us

Avatar Partners ([www.avatarpartners.com](http://www.avatarpartners.com)) is a leading North American Extended Reality software provider for Government and Industry with headquarters in Irvine, CA. We specialize in best-in-class immersive reality solutions that Simplify Complex Systems™ to increase the efficiency, safety and effectiveness of equipment, systems, and processes.

### Job Description

We are looking for an experienced UX/UI Designer with a diverse skillset and experience with the Unity Engine. In this role you will have the opportunity to embody true ownership in your work, collaborate with diverse teams, and help design and solve problems across multiple industries.

### Responsibilities

- Developing UX wireframes, flows, and interactive prototypes
- Collaborating closely with key partners and members of our design team and delivering visual treatment specifications for the user interface
- Designing products through their entire lifecycle
- Developing human-centric designs that are intuitive, usable, and delightful
- Taking projects through from concept to implementation with a high level of craft and polish

### Requirements

- A strong portfolio demonstrating graphic design principles and technical expertise
- Skilled in using Unity as a designer
- Able to prototype and present ideas in Unity
- Create innovative solutions for a wide variety of product design challenges, including VR AR interfaces and environments, and person-to-person
- Previous professional digital design experience in the discipline of UX and UI Design
- Strong knowledge of what UX design is and be able to translate your vision to other junior team members
- Experience designing interfaces for physical products outside of mobile web and desktop
- Proficient in Figma or Sketch, and strong understanding of Adobe Photoshop, Illustrator, and Sketch
- A strong sense of color theory and typography
- Have a clean, timeless, and focused visual design style
- Strong leadership and people management skills with a proven ability to mentor and develop skills in junior and intermediate UX Designers

**Desirable Qualifications**

- Ability to communicate technical concepts to technical and non-technical audiences at various levels of the organization
- Experience managing a design team
- AR / VR / MR Experience
- Experience with 3D Modelling

**Benefits**

- Competitive Salary
- Competitive Benefits: Health, Vision, Dental & Chiro
- PTO Time
- Sick Time
- Health Insurance
- 401K
- Growth opportunity!
